Title: Deep Fat Fryer and Collar for Such a Fryer

Assistant Commissioner for Patents
Alexandria, VA 22313-1450RENEWED PETITION UNDER 37 CFR 1.137(b)

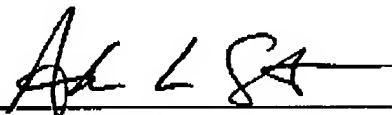

Sir:

Applicant filed a petition under 37 CFR 1.137(b) on March 21, 2007, to revive the above-identified patent application. Such petition was dismissed by the Petitions Examiner for failure to include the required reply. Petitions Examiner stated that the amendment filed with the petition was considered non-responsive since it did not place the application in condition for allowance. Petitions Examiner further stated that a responsive reply would be a Notice of Appeal with required fee, an amendment that *prima facie* places the application in condition for allowance, or the filing of a request for continued examination (RCE). With this Renewed Petition under 37 CFR 1.137(b), Applicant is filing an RCE and is relying on the Office Action Response and Amendment After Final filed with the Petition to Revive on March 21, 2007.

As stated in the previous petition to revive, Applicant avers that the entire delay in filing the required reply from the due date for the reply until the filing of a grantable petition pursuant to this paragraph was unintentional. Applicant respectfully requests that favorable consideration be afforded this Renewed Petition under 37 CFR 1.137(b), and that Patent Application Serial Number 10/538,623 be revived. Authorization is given to charge any additional requisite fees to Deposit Account 14-1270 to complete this filing if necessary.

Respectfully submitted,

By

Adam L. Stroud,
Reg. No. 48,410
Attorney
